How to view GWSECU Security Camera system on Laptop

Normally our security camera system displayed and playback through monitor that connected via HDMI or VGA cables, if you want to view on the laptop, it's also available.

Firstly, please download the PC software from our website http://www.gwsecu.com/Uploadfile/file/Software/NVR_3_Series/GuardStation_Win 64-B1130.3.11.0(IN).exe and download the NVR client software.

Secondly, installed software and login with user: admin, and password: 123456. We will see the control panel like below, and select "Device Management".

Menu 🖉	Guard Station 3.0 Voleo Management Software Control Pariet Live Vitew(1) Device Management										
Common											
	\bigcirc	View View View View I view.		Playback Search for and play back recordings.			Video Wall Use and configure the video wall	ų.	Alarm Records View alarms in real time when any exception occurs.		
	P	Audio Twe-way audio and broadcast		People Counting Court people that enterediat during a cettain period.			Device Management Add, edit, delete and configure d	PWCRS.			
								,			
Basic											
Em		View	Alarm Configuration	Client Configuration	Sequence Resource	User Management	Recording Schedule	Operation Log	Behavior Search	Face Recognition	

Thirdly, let's select "Cloud Device" and login by the account that you've registered on "Guard Viewer" mobile App, and then the device will be displayed automatically.

Menu		Guaro Station 3.0 Video Management Somware										
	Control Panel	Live View(1)	Device Management									
Device	Group	This cloud account is the one that your "Guard Viewer" mobile App registered account.										
Encoding Device		Cloud Account: 41084										
Decoding Device		My Cloud Device(1) 🖨 Cancel 🗢 TimeSync										
Cloud Device		√ Cloud Name	Local Name	Model	Device Configuration	IP Address	Status			Operation		
IIII Network Keyboard		My Devices										
		It will be automatically online if your mobile App works										

Then let's go back to live view and select device and channels, it will display on your

laptop.

For the MAC OS, because the APP was not downloaded from APP Store directly, it will pop this information. You have to go into the settings and allow this APP.

System Preferences Edit View Window Help General FileVault Firewall Privacy A login password has been set for this user Change Password... Require password 5 minutes 😧 after sleep or screen saver b sage Disable automatic login
